Dear Sirs:

I am writing to register a complaint against the ISC Invention Submission Corporation. Several years ago I gave then ten thousand dollars to promote my product [REDACTED]. They took my money, developed a small booklet, told me that a patent was pending but I have no evidence that anything else was done to develop and promote my product.

They have been resistant in giving me concerned evidence that they are doing anything for me but taking my money. A lot of things were said to me when they took my idea but little was done but the extrication of my money.

The name of the corporation is: ISC Invention Submission Corporation
Paul W. Lutz Regional Manager
30600 Telegraph Road
Suite 3247
Bingham Farms, Mi 48025

What this man told me about the things he would do for me, what is in my contract and what he actually did for me are very different from what was manifest. I feel terribly used, abused and taken advantage of and I would not recommend this company to any one as I feel gouged, and financially abused. There is not righteousness, no honesty or no performance from this company. I am told by the Patent office that there is no patent pending on my invention though I have signed contract stating that that was done....this company is a bad faith company and I would like it investigated and dealt with.

Thank you

[REDACTED]
Georgiana Rodgers
